NORIS Medical®
Dental Implant Solutions

Course Overview

Dental implants are a noble treatment option for fixed teeth. The success of dental implants is a combination of surgical and prosthetic skills of a dentist. This course will provide a deep insight of prosthetic solutions in various situations in Implantology. It includes single, multiple and full mouth implant cases prosthetic approach considering the overall factors which are related to the longevity of Implant restorations. The final result is always remembered by the patients...

Course Objective

- In depth knowledge and technical expertise of prosthetic outcome of dental implant restorations will increase the overall performance of implants and make it a long term solution.

Course Highlights

- Practical demonstration and hands on of prosthetic steps in Implantology

Lecturer

DR. VIMAL GALA
(PROSTHODONTIST)

He has completed Bachelors of Dental surgery (BDS) from the prestigious Nair Hospital & Dental College, Mumbai in 2009.

He completed Masters Degree (MDS) in Prosthodontics and Implantology from Rajiv Gandhi University of health Sciences, Karnataka in 2013. He is a fellow in International Congress Of Oral Implantology (USA). Currently, his private practice is established at Dr. Gala's Dental Clinic and Implant centre at Mulund (west), Mumbai.

He is a visiting consultant, Prosthodontist and Implantologist at 22 other clinics/hospitals/dental health centres all over Mumbai.

He has 4 publications, 3 in international journals and 1 in national journal. He believes in the combination of theoretical and practical knowledge in dentistry and believes that this combination can make any clinical practise successful.
